

Confirmation of Visa-free

I have already knew that until December 31, 2026, China has officially implemented a visa-free policy on a trial basis for_____ordinary passport holders. Persons holding ordinary passports from the above countries who come to China for business, tourism, visiting relatives and friends and transiting for a period of no more than 30 days can enter China without a visa.

Even though I knew the above policy, I still insisted on applying for a visa.
